EDUCATION

The University of Chicago, Chicago, IL

Bachelor of Arts in Computer Science, Minor in Spanish, September 2022 - June 2026

GPA: 3.78 / 4.00

Relevant Coursework: Engineering Interactive Electronics onto Printed Circuit Boards, Computer Architecture, Theory of Algorithms, Systems Programming I & II

Awards: Highschool Valedictorian (2022), Eagle Scout (2021)

EXPERIENCE

University of Chicago Dept. of Astronomy, *Lab Assistant*, Chicago, IL January 2026 - May 2026

- Aided students in designing, building and testing a **rubber band-powered car** and a **maze-solving robot** for the Creative Machines and Innovative Instrumentation course; utilized Fusion360, Arduino IDE, and ESP32-based microprocessors

Accenture, *Silicon Embedded Software Summer Analyst*; Seattle, WA, June 2025 - August 2025

- Developed a **register map visualization VSCode extension** for a client; utilized Typescript, C Header Files Jest / Jest E2E, Joi, SVD files, Thrift, Mercurial and BUCK to finish deliverable in 1.5 months

Gridlink, *Backend Development Intern*; Chicago, IL, June 2024 - August 2024

- Implemented a **dynamic forecast weather data retrieval and storage service** and revamped an existing **electricity price data retrieval and storage service** for Gridlink's EV Fleet Charging Software; utilized Typescript, APIs, Prisma, Jest, and Zod to finish deliverable in 1 month

Makes Innovation, LLC, *C / Engineering Intern*; Sugar Grove, IL, May 2021 - September 2023

- Developed **C operating system** for a Police Motorcycle Alarm Controller; utilized MPLAB, MCC, UART debugging, PCB schematics, and soldering

LEADERSHIP

Derivatives of Data Science, *Executive Board Member (IT Manager)*, January 2023 - September 2025

- Coordinates with Data Science experts to provide networking opportunities and advice for undergraduate students
- Produced a website to communicate the organization, reached over 100 undergraduate students

Dormitory House (Booth House), *Vice President*; September 2023 - May 2024

- Managed and plans study breaks, house meetings and events for Booth House at the International House Dormitory
- Aided in planning a Valentine's Day rose sale fundraiser, raised over \$200 for house activities

SKILLS

Technical: C, Python, PCB / Schematic Design (KiCad), Typescript / Javascript, Unity, API Integration, Git / Github, Linux Terminal, MPLAB, BUCK, Jest / Jest E2E, Mercurial, Fusion360

Language: Bilingual in English and Spanish

INTERESTS

Software Design, Embedded Development, CAD / PCB Design, 3D Printing, Laser Cutting / Engraving, Blogging, Soldering / Circuitry, Foam Dart Blasters, PC building
